FAQs

What subjects are covered in the live 3-day weekend crash course?

The live course covers every subject of internal medicine from basics to complicated scenarios. Differential diagnosis and management is discussed in a stepwise approach. Course binders are provided, which you can revise for your exam. The sessions are very interactive. Hundreds of MCQs with explanations of each choice are discussed and numerous clinical and radiological images reviewed. We provide all the updated and essential information you need to pass your exam.

Why is iMedicine Review my best choice?

- Over the past fourteen years, nearly 100% of participants have passed the ABIM exam.
- The course is available at an unbeatable tuition fee.
- The review is held in five cities in 2020. You can pick any of the sites for participation, or choose more than one site if your schedule doesn't allow you to attend all of the days at one site (based on seating availability).

Does iMedicine Review offer anything besides the 3-day live course?

Yes. In addition to our live weekend crash courses, we offer the iMedicine Review Course App, excerpted from the live course, and the iMedicine Review Q&A1500™—more than 1,500 questions and answers for ongoing study and review. Both products are available online or as apps for your devices, and the online versions are free with your paid course registration. They're available for purchase on our website and are a great way to see if our comprehensive live course might be right for you.

Why should I take the live course if I can study online or on my device with the iMR Course App or Q&A1500?

The live course offers much more than either of our supplementary products. Hundreds of additional questions, exercises, mix and match questions, and images are discussed. Plus, there's the value of studying interactively with other doctors. The live course is intense and high yield. It is very unlikely you would pass the ABIM exam by using the iMedicine Review Course App or Q&A1500 alone.

How do I register by mail?

Fill out the form on this brochure and mail it with payment to: iMedicine Review, 1268 Meadowbrook Rd., Lancaster PA, 17603. We will confirm by email.

How do I register online?

Go to iMedicineReview.com and click the blue REGISTER NOW button on the left side of the page. You will be taken to the registration page. Follow the instructions for the course location you want and click REGISTER. Below the live courses you may also purchase the iMedicine Review Online Selected Course, with selected material from the live courses, and our Q&A1500.

After registration, how long does it take to get the password for online Q&As?

It takes 2–3 business days for completion of the registration process. An access password will be included in the email confirming your registration. The password is provided to you *alone* with your paid registration and should not be shared. Access to the Q&As will continue until you take your exam.

Are course discounts available?

Yes, several discounts are available. See the Register by Mail form at left, or contact us online at info@iMedicineReview.com for more information.

Can you suggest additional reading or preparation?

Yes. You can also practice with the MKSAP 17 self-assessment test. Plus, while numerous clinical and radiological images are reviewed during our live course, you can do additional study with the *Atlas of Internal Medicine* by Braunwald.

What if I have to cancel? Can I get a refund?

Yes. If you cancel at least 14 days prior to starting the course we will refund the balance of your tuition fee after deducting a \$100 processing fee. There is no refund for cancellations within 14 days of the course. A written notice is required by email for cancellations.

Is your course guaranteed?

Yes! We have a "100% Pass Guarantee." If you fail your ABIM exam, you can participate in our course again at no charge. To take advantage of our guarantee, send us written verification from ABIM of your test results. Please note that our pass rate is better than many older and more expensive courses.

Read what our students have to say:

Fantastic course! Simply the best.

Resident Representative, New York Presbyterian Hospital (Columbia Campus), Washington, DC

A superb way of learning medicine.

Resident Representative, Johns Hopkins University/Bayview Medical Center Program, Baltimore, MD

The images and slides made every aspect clear and understandable.

Chief Resident, Yale University Internal Medicine Program, CT

Highly focused!

Chief Resident, University of Pennsylvania Hospital, Philadelphia, PA

Our whole third-year class took the course and everyone passed.

Resident, University of Connecticut, Farmington, CT

I have asked my whole class of residents to participate in this course.

Chief Resident, Staten Island University, Staten Island, NY

Slides and information were very comprehensive. Loved it!

Resident, Albert Einstein COM, Montefiore Program, Bronx, NY

Faculty very open for suggestions and discussing controversial topics. Intense, excellent course.

Resident Representative, PinnacleHealth Hospital, Harrisburg, PA

Fill-in-the blanks and images with discussion of key points made this course great!

Resident, Ohio State University, Columbus, OH

The course summaries are the best. It's all we need to know to prepare for the board. The images-based discussion was unique.

Resident, Hartford Hospital, Hartford, CT

Every aspect of the course was great: location, handouts, and price.

Chief Resident, UPMC Mercy Hospital, Pittsburgh, PA

You'll get comprehensive training presented in a unique and highly effective way.

- Improve your test-taking skills with numerous exercises, matching question, and tables.
- Get prepared to meet the specific challenges of the computer-based ABIM exams.
- Familiarize yourself with clinical pearls used in internal medicine, with particular focus on buzz-words commonly used in questions.
- Prepare with more than 1,500 questions online and via iPhone/Android apps.
- Prepare by reviewing an extensive library of updated questions, including all specialties of internal medicine.
- Answer questions with confidence by reviewing the multiple choice format of the exams. Various questions based on radiology, EKGs, PFTs, ABGs, ophthalmology, and dermatology will be covered, along with graphics and numerous pictures you might encounter.

Training is thoroughly up to date. With iMedicine Review you'll receive state-of-the-art preparation for the ABIM exam. Learn the stepwise approach to management of diseases based on current guidelines. This course offers 30 Category 2 CME hours.

An unparalleled success rate.

For 14 years straight, over 99% of participants have passed and become certified or recertified.

Lower tuition costs, yet more effective than some older, established courses. Discounts are available for Chief Residents and Resident Representatives of internal medicine.

Course Director

The course is led by **Shahid Babar, MD, FACP, FHM**, who has tutored scores of medical residents to help them pass the critical ABIM board exams. Dr. Babar is Clinical Assistant Professor of Medicine and the Chair of GME. He directs the Internal Medicine Teaching Service at Lancaster General Health and teaches medical residents and medical students. The internal medicine review course has been conducted at various academic programs and has significantly raised the scores for their residents.

Disclaimer: The board review course is focused primarily on ABIM exam preparation and is not affiliated with any institution or organization. iMedicine Review is not responsible for any errors or omissions or consequences from using the information in the Comprehensive Live Course, iMedicine Review Course App, or Q&A1500. The author has made every attempt to confirm the accuracy of the contents presented in the course material and has described generally accepted practices based on current guidelines. Inquiries or further suggestions can be addressed to iMedicine Review via email: info@iMedicineReview.com. Please note that communication with iMedicine Review should not violate the ABIM exam pledge.

iMedicine Review Apps

iMedicine Review Course App

The first and only complete internal medicine review app on iPad/iPhone, it contains high yield course material selected from live classroom courses. Get a discounted price of only \$19.99 (50% off for a limited time) if you purchase from your device. Or try the free lite version on iPad/iPhone.

This comprehensive review is designed for internal medicine residents, practicing internists, and sub-specialists who are preparing for the ABIM Internal Medicine Certification or Recertification Examination.

It can also be used to prep for internal medicine in-service exams, internal medicine components of USMLE II and III, and for international internal medicine examinations including MRCP, PLAB, RCPSC/MCCQE or FRACP. Enhance your knowledge of the day-to-day practice of internal medicine.

iMedicine Review Q&A1500 App

Q&A1500™ on iPad/iPhone/Android devices lets you access more than 1,500 study and review questions (more Q&As are added periodically).
